MINERS ARE AROUSED

Over the Shooting of a Little Boy by Coal and Iron Policemen.

RELATIONS BECOMING STRAINED.

The Strikers Exhibit the Utmost Contempt For the Deputies and Trouble May Be Started at Least Provocation.

Wilkesbarre, Pa., June 7. — The shooting affray at the Stanton colliery, at South Wilkesbarre, in which a 13-year-old boy was seriously wounded by coal and iron policemen, has stirred up this community more than any other happening since the coal strike began nearly four weeks ago.

Although the region is quiet, there is an ugly feeling among the thousands of idle men. The strikers have the utmost contempt for the deputies and coal and iron police, and trouble can be started at the least provocation. The condition of the boy remains critical.

The police were fortunate in getting the four men who are accused of doing the shooting safely away from the colliery. A crowd of several thousand persons remained in the vicinity for hours after the shooting, not aware that the men had been quietly taken from the place. There was also a throng at the police station at midnight waiting for the prisoners, but the men were hustled into the station so quickly that the crowd did not get the men.

Another coal and iron policeman was arrested for coming out of the Stanton colliery and flourishing a revolver in a threatening manner.

The sheriff called on President Mitchell for the purpose of enlisting the aid of the national strike leader in preventing any further overt acts upon the part of the idle men and boys. Mr. Mitchell assured the sheriff he would do all in his power to have the men keep the peace, and that the striking miners would be asked to help guard property work from destruction. The worst time for disturbances is at 6 p. m., when the men leave for their homes. The sheriff said he would swear in during the day 20 trusty men, who will be kept in readiness at his office in the court house for any emergency.

Gild Their Revolvers.

Hazleton, Pa., June 7.—Some of the imported men who left the service of Lehigh Valley Coal company at Yorktown, are reported by the strikers to have disposed of their revolvers for very trivial sums in order to raise money to get back to Philadelphia. The Yorktown local has requested the women and children of that place not to congregate at the barracks, where the imported men and deputies are stationed. One of the Delaware, Schuylkill and Susquehanna railroad crews, which has been hauling special officers from one town to another, refused to do this work. District President Duffy and Sheriff Gilbert of Carbon county will have a conference at Yorktown regarding the withdrawal of the deputies placed there by the direction of the sheriff. Nearly 100 strikers stationed on the public road leading to the drift on the colliery of Cox & Brothers & Company stopped the nonunion firemen and pumpmen employed at that mine from going to work. The company officials report that there was no display of violence on the part of the strikers.

Fences Burned.

Wilkesbarre, Pa. June 7.—Sheriff Jacobs of this county had a particularly busy time. He was called upon by several of the companies to protect their property. Men were sent quickly to some localities where trouble was looked for, prepared to read the riot act, but this was not done. The coal operators hereabouts deplore the occurrences of late, but they feel that the coal and iron police can not be held responsible for what may take place. There have been many attempts made at arson. Hundreds of yards of fencing surrounding collieries have been burned by boys and young men. The coal companies' officials hold the mine workers responsible for all the disturbances.

Small Operations Closed.

Scranton, Pa., June 7.—Shutting down of the small screens and culm washeries erected at some of the refuse piles of long abandoned drifts and tunnels, is now engaging attention from the coal strikers of the Lackawanna valley. There are perhaps a score of these workings, with six to 10 men each, and their trade is chiefly to farmers and some small industries. The Luzerne, a small con-

cern in North Scranton was closed at first, but its owners put on a new force of workmen, and equipping them with guns told them to work the place at all hazards. It screens about 100 tons daily, most of which goes to the Scranton Railway company.

Roosevelt Will Co-Operate.

New York, June 7.—The board of trade and transportation received a telegram from President Roosevelt apprising them he would be glad to receive the committee appointed by the board to ask the president to appoint a commission to investigate and take steps looking towards the settling of the anthracite coal miners' strike. After considering the fact that the law had been repealed the committee decided not to visit the president.

COLORED CHURCHMEN

Object to Being Fenced Off at Sunday School Meetings.

Denver, June 7.—Representatives of Denver colored churches have adopted resolutions declaring they will remain away from the International Sunday School convention, to be held in this city, and will notify colored delegates throughout the country not to attend, unless an order restricting them to a certain section of the church is withdrawn. The executive committee that made the restriction was, it is charged, influenced in their action by a few white delegates. The action was characterized as unjust discrimination, and the sentiment expressed against the committee was very strong.

Earthquakes in Panama.

Washington, June 7.—Soon after the senate convened Mr. Morgan, chairman of the committee on interoceanic canals, presented a letter from Secretary of State Hay enclosing copies of letters received by the state department regarding earthquakes and riots in the department of Panama. The letters enclosed newspaper clippings describing the earthquakes. The secretary of state said that the report of the riots would cover 1,000 typewritten pages, and the department could not furnish it within a month. The newspaper clippings, which were read, described in detail the destruction done by the earthquake of 1882. The documents were referred to the committee on interoceanic canals "in order that the committee may determine," said Mr. Morgan, "whether it is necessary for the secretary of state to have the month's work done on the report of riots." A joint resolution was passed authorizing the secretary of war to investigate.

May Combine.

Louisville, June 7.—At a meeting of representatives of the liquor trade of Cincinnati and Kentucky, composing the National Protective association, which was recently revived by the distillers and wholesale liquor dealers of this state to fight the prohibition movement, it was decided to postpone any action looking to the amalgamation of the Protective association with the Wholesale Liquor Dealers association, whose object is of a similar nature, until the annual meeting of the latter organization in Pittsburgh June 10. If the Wholesale Liquor Dealers' association decides to establish a bureau of education the funds and forces of the two organizations will be combined in the fight against prohibitory legislation.

Damage From Cloudburst.

Beatrice, Neb., June 7.—Reports received here from Cortland, the scene of the cloudburst, indicate a more serious condition than first reported. A foot of water fell in three hours. The rain fell in blinding sheets, and for two hours it was impossible to see objects 50 feet away. The streets in the towns of Cortland, Princeton and Pickrell were unable to carry away the immense volume of water, and basements of dwellings and stores were flooded, doing a great amount of damage. Crops in a great many places are a total loss, being entirely washed away. Creeks and other streams became raging torrents, and a number of people on lowlands were compelled to remove to places of safety.

A Bank Fined.

New York, June 7.—At a meeting of the Clearing House association the Central National bank was fined \$5,000 for violating the rules of the association governing collections on out of town checks. President Langdon of the Central National made a statement to the association, the substance of which was, that if the bank was guilty of the charge made it had erred unwillingly. George F. Baker, president of the Clearing House association, presided at the meeting, which was largely attended.

Gijon, Spain, June 7.—A boat containing eight Spanish artillery officers, was run down by a steamer and five of the officers were drowned.

BLOODSHED EXPECTED

On Account of Murder Trial in Courts of a Kentucky County.

COURT AND BAR ARE TERRORIZED.

Judge Redwine Is Said to Have Refused a Change of Venue in Cockrell-Harris Case For Fear of His Life.

Lexington, Ky., June 7.—John H. Johns, an attorney of this city, returned from Jackson, Ky., whither he went to defend Thomas Cockrell, charged with murdering Ben Harris several months ago. Johns says the court and bar of Jackson are in terror over threats on both sides of the Cockrell and Harris factions, that Judge Redwine refused to act on the application for a change of venue because of fear of his own life, and the lives of others. Two other attorneys were elected to preside as special judge, but each refused to act for fear of his life. Governor Beckham has been appealed to, and has the matter under advisement. Johns says the county is bordering on revolution and bloodshed is expected.

Dr. Browning's Bill.

Pittsburg, June 7.—The bill of Dr. Walter C. Browning of Philadelphia for \$190,070 for professional services in attending State Senator Chris L. Magee, during the long illness which resulted in his death, came before Judge Over of the county orphans court. The executors had refused to pay the bill, averring that it was exorbitant. Counsel for Dr. Browning stated before the opening of the hearing that Dr. Browning's claim against the Magee estate aggregated \$350,000, but he would not make public the items which go to make the claims. Attorneys for the estate say they have received no notice that the claim had been increased.

Glad War Is Over.

Hamilton, Bermuda, June 7.—The Boer officers, who have been living in the prison camp, on the islands near here, have been allowed their liberty, on parole. Several of them came to shore here and were interviewed. Generals Cronje, Wessels, Botha and others were extremely reticent, but they said they were glad the war was over and would be delighted to get back to their homes. It is understood the rank and file of the Boers will be allowed ashore in batches of 10. The officers have been invited to "at home" at Government House.

Cars Not Molested.

Providence, June 7.—No traces of the disorder in this city and Pawtucket in connection with the streetcar strike was apparent when the traction company set its cars in motion. Fully as many cars were sent out as on Thursday, but they were not molested. The company was prepared to operate more than half of its full capacity. The strikers, however, maintain that 700 men are out. The traction company declare they have nearly 800 out of 1,200 men at work, the great majority of them old employees.

Millionaire In Police Court.

Port Huron, Mich., June 7.—James L. Board, a millionaire of this city, was in the police court, charged with a misdemeanor in not obeying a subpoena to appear before the state tax commission and give testimony as to his property holdings. The complaint was made by A. F. Freeman, chairman of the commission. The penalty attached to the misdemeanor is \$1,000 fine, or two years' imprisonment. Mr. Board's examination will take place June 17.

The President's Note.

Washington, June 7.—The following statement was issued at the White House: "Upon the occasion of Governor Taft's call upon the pope he presented a set of the president's books, with a brief note accompanying the volume, in which the president asked the pope's acceptance of them, thanked him for his repeated expressions of good will to America, and wished him many happy and prosperous years of life."

A Shocking Suicide.

Richmond, Ind., June 7.—The most shocking suicide that has occurred in this city was that of William A. Armstrong, 70, who saturated his clothing with kerosene, and after setting fire to himself fired a bullet through his brain. In the home the coroner found a note in which Armstrong asked the forgiveness of his wife and family. He had been suffering with rheumatism.

Rose Smoch, known on the stage as Sis Hopkins, secured a divorce from Harry Hardy at Cincinnati.

BABY TAYLOR

Talks Italian to Reporters Who Seek to Interview Her.

Cincinnati, June 7.—Margaret Taylor, who was kidnaped from this city over four years ago, arrived here, accompanied by her parents and her brother Edward, aged 3 years, whom she had never seen till they met in New York this week. "Baby Taylor" as she became known here, was met at the depot by a force of newspaper reporters, who interviewed her, some of whom she confused by talking Italian. When the party reached their home in Cummingsville there was an ovation of neighbors and sympathizing friends. Interest here now centers in the extradition of the aunt, Clara Taylor, from Italy, and the application at Columbus for the pardon of the grandmother and Miss Frances Taylor, an aunt.

Regarded as American.

London, June 7.—Sir Robert Giffen, the former president of the statistical society and former chief of the statistical department of the board of trade, testifying before the house of commons committee on steamship subsidies, said the changes in the position of the British shipping compared with those of other countries was due largely to circumstances apart from subsidization. There had been a diminution of British progress, while elsewhere, especially in Germany, there had been a great advance. The number of American-owned ships sailing under the British flag, quite apart from those with the combine recently formed, had largely increased and was still increasing, and he regarded it as obvious that, notwithstanding the fact that the White Star line steamers were sailing under the British flag, the United States government regards them as being American vessels, and would be prepared to defend them as the property of American citizens.

No Danger of Eruption.

Albuquerque, N. M., June 7.—Dr. C. L. Herrick, former president of the New Mexico university, and one of the most eminent geologists in the west, after carefully examining the supposed volcano crater, 15 miles from Gallup, gives a description of the locality and says: "From cracks in the sandstone overlying the lignite there is issuing a constant stream of heated air, carbon dioxide, sulphurous oxide sulphur. The sulfataric action may be attributed to the slow oxidation of shales in the presence of water." Dr. Herrick does not believe there is any possibility of dangerous eruption from this crevasse.

Strikers Congregate.

Harrisburg, Pa., June 7.—The situation in the Lykens valley region is becoming more serious. Sheriff Reiff has decided to increase his force of deputies. The strikers decline to serve, and the sheriff has sent word here to swear in a small force. The additional deputies will go to Lykens and Wiconisco and remain on duty until the trouble is over. The strikers congregate on the outside of the colliery and hoot and jeer at the pumpmen and firemen as they pass to and from work.

Action Against Beef Trust.

New Orleans, June 7.—The federal grand jury has presented a bill of particulars against the New Orleans representatives of the alleged beef trust to Judge Parlange and asked that the court compel them to testify and produce their books or answer for contempt of court. The judge ordered the packers' agents to appear Monday morning, and show cause why they should not be punished for contempt.

Too Much Rain.

Des Moines, Iowa, June 7.—A severe rain storm in central Iowa damaged highways, railroad tracks, crops, and in many cases buildings. Reports coming in indicate that corn in many places was washed out. At Webster City, the Baptist church was struck by lightning, and the steeple split from top to bottom. Mitchellville reports that the corn planted on the slopes was washed away and will require replanting.

Mr. Hanna Resumes.

Washington, June 7.—Mr. Hanna, in the senate, discussed the canal situation as presented by the engineers, and said the Bobie dam had been the bugbear of the opposition to the Panama route. Engineers, who could be credited, said it was feasible. In fact, said the senator, scarcely anything is impossible in this day, from an engineering viewpoint, if it is necessary.

Celina, O., June 7.—The Fourth district Democratic congressional convention adjourned without making a nomination to meet at Sidney, O., June 10. The 528th ballot stood: Garber, 114; Adkins, 78; Loree, 63; Good, 1.

WITH THE DEMOCRATS

Congressman Grosvenor Votes With His Political Opponents.

EXPENDITURES OF GENERAL WOOD.

By a Strict Party Vote the House Tables the Resolution to Secure Information About Money Transactions In Cuba.

Washington, June 7.—At the opening of the session of the house Mr. Hull (Ia.), chairman of the committee on military affairs, reported back the resolution requesting information as to the salary or other compensation paid to General Wood during the occupation of Cuba. The committee recommended that it lie on the table.

Mr. Richardson, the minority leader, asked if the resolution was not debatable. When the speaker responded in the negative Mr. Bartlett (Ga.) formally made the point of order hat, being a resolution of inquiry, and not having been reported to the house within a week after its introduction, it became privileged and was debatable. The speaker overruled the point of order.

On a rising vote there were 77 votes for Mr. Hull's motion and 55 against it, the division being on party lines, with the exception that Mr. Grosvenor (O.) voted with the Democrats. Mr. Hay (Va.) demanded the ayes and noes, and the roll was called.

The resolution was laid upon the table—100 to 72—a strict party vote. Mr. Grosvenor voting with his Republican colleagues for the motion.

The debate upon the anti-anarchy bill then was resumed.

Mr. Bartlett (Ga.), the first speaker, argued that the provisions of the senate bill were unconstitutional.

Mr. Patterson (Tenn.) favored the anarchist sections of the house substitute.

Mr. Richardson (Ala.), during the course of some remarks upon the bill, caustically criticized President Roosevelt's Memorial day oration at Arlington. He recalled the visit of the late President McKinley to Huntsville Ala., a year ago, and the reception given him by the Confederate and Union veterans. The noble sentiments Mr. McKinley uttered upon that occasion, Mr. Richardson said, endeared him to the south and he told of the great sorrow felt there when Mr. McKinley fell at Buffalo. Reluctant as he was to do so, Mr. Richardson said, he felt it his painful duty to contrast Mr. McKinley's sentiments at Huntsville with Mr. Roosevelt's remarks at Arlington May 30.

Will Try a New System.

Chicago, June 7.—The packing houses of Chicago are preparing to introduce more modern methods into their system of meat delivery for the city trade. They will use the railway lines. During the recent strike of the teamsters the scheme, it is said, was given a thorough and successful test. Once in effect, the packers will require but one-fourth of the present force of drivers.

Laden With Supplies.

New York, June 7.—Laden with 500 tons of supplies for the ships on the Asiatic station, the cruiser Buffalo has sailed for Manila. The ship also carried 700 sailors to replace those whose terms of service on the ships of the European and Asiatic stations have expired. The Buffalo will go direct to Gibraltar, and is expected to make the trip to Manila in 42 days.

Both Claimed It.

Atlanta, June 7.—Later returns from the Democratic primaries confirm the estimated result, with the exception of the nomination for congressman in the Tenth district. W. H. Fleming, the present representative and T. W. Hardwick, his opponent. Both claim his district, but the race is so close that the official count will be required to decide it.

Ordered to Washington.

Chicago, June 7.—General Miles reached here and left at 3:30 p. m., via the Pennsylvania, for Washington. He said to a reporter: "I have been ordered to Washington. I am not going to the exercises at West Point." He added that he preferred not to discuss his reasons for going to Washington, other than that he had been ordered to do so.

Toronto, June 7.—The pavilion in the horticultural gardens, the second largest auditorium in Toronto, was burned to the ground. The conservatory adjoining, in which were many valuable and rare plants, was also badly scorched, and many of the plants were irreparably damaged. The loss is heavy.

DEMOCRATIC CONVENTION.

In pursuance to the action of the Ninth District Congressional Executive Committee, the Democrats of Mason County are requested to meet in mass convention at the Court House, Maysville, Ky., at 2 o'clock p. m. on Saturday, June 14th, 1902, to select delegates to attend the congressional convention to be held at the opera house in Maysville on Wednesday, June 18th.
T. D. SLATTERY, Chairman.

It is an ill wind that blows no one any good. The Boer war is over, and it is interesting to note what this country made by it. England paid us nearly \$18,000,000 for horses and mules for use in South Africa, and her account for food stuffs was vastly larger.

THE Insurance Press, the official life insurance journal of the United States, gives some astonishing figures in life insurance statistics in a special edition just issued. It shows that \$1,000,000 is paid to the people every business day in the year. Cincinnati is seventh on the list of beneficiaries in insurance distribution, and her portion last year was \$3,416,960. Ohio was paid over \$12,000,000, of which West Union received \$4,000 and Manchester \$3,000.—Exchange.

But there's another side to this story. It would be interesting to know just what is paid to the insurance companies every day in the year.

Dr. Cyrus Edson, of New York City, sets forth some clear, definite views upon the subject of physicians advertising in a recent article in the New York Daily News. He sees no good reason why physicians should not, if they choose, insert cards in daily papers, giving name, address, telephone number, and, possibly, their specialty. He believes that the time will come when no member of the profession will deem such advertising out of place. It is countenanced in Europe, and should be permitted here.

RUSH FOR WEALTH

A Menace to the Life of the Republic, Says President Patton.

CHICAGO, June 4.—The dangers to American national life resulting from the love of ease and luxury adduced by modern civilization was pointed out by Francis L. Patterson, President of Princetown University, at the meeting of the Presbyterian Local Union in the city last night. President Patton's address was upon "The Place of Conscience in the National Life," and his remarks tended to show that the American ideals of life had reached a point where they no longer approached the highest ideals of Christianity.

"Our national conscience is in great danger at present," said President Patton, "on account of the great desire for luxury and wealth which is pervading this country to the detriment of all other ambitions. I have no objection to luxury and riches, in themselves, but it is in the matter of attaining some of the great fortunes at the cost of conscience and honor that the danger to our American republic lies."

TOMATO BLIGHT.

It Can Be Prevented by Spraying Vines With Bordeaux Mixture.

Last year tomato vines in this section were seriously damaged, and the yield greatly lessened as a result, by a fungus disease known as blight. The lower leaves are first attacked. The fungus growth is found on the under side of the leaves and it causes them to dry up. The blight spreads gradually until nearly the whole plant is affected.

The editor of the BULLETIN sent samples of the affected leaves a year ago to Prof. H. Garman, entomologist and botanist at the Agricultural Experiment Station, Lexington, who replied that the leaves were affected by the blight, and that it was due to a microscopic plant parasite. Prof. Gorman added that the disease can be ward off by spraying the leaves with Bordeaux mixture. This should be done early, before the plants are attacked.

Parties desiring further information should write to Prof. Garman.

The Y. M. C. A. men's meeting Sunday afternoon at 4 o'clock will be addressed by Mr. C. P. Traxel. Many have been waiting to hear Mr. Traxel and should be present Sunday afternoon. "Con" will leave in a few days for Lake Geneva, Wis., where he will spend the summer at the association camp.

The Popular Linen Color!

As exemplified in our wash goods. We have it in pure linen, in silk and linen, all cotton, silk and cotton, linen and cotton. It comes both plain and fancy—the latter effect produced in some cases by dainty stripes of lacey open work, or embroidered dots, or a stylish printed figure. You can choose a solid linen shade or have dashes of white, black or a color on a tan background as taste or inclination suggest. For linen-color lawns with printed design in contrast 15c. For finer lawns figured in color 19c. For linen suitings, plain, checked or striped, 25c. For exquisite tan silk and linen fabrics, embroidered or lace striped, 50c.

THE DIMITIES.

Soft delicate solid colors, or stronger shades, with exquisite borders, many blending into white, producing an indescribable effect of charm and style. Over 25 patterns—you see choosing is made easy—like paying, for the price is only 15c. a yard.

D. HUNT & SON

GRAVITY COOLING MACHINE.

Reduces the Temperature and Makes the Air Dry and Healthful.

[New York Sun.]

The gravity apparatus for cooling dwellings, invented by Prof. Willis L. Moore, Chief of the Weather Bureau, patents for which were recently secured, was placed in operation for public demonstration to-day. The machine looks like a cylinder stove, and the inventor says will in time come to be considered as essential to the comfort of a dwelling in summer as heating apparatus in winter. Prof. Moore says that the cost of cooling a given space with his machine is approximately the same as that of heating the same space by means of a stove or furnace. Besides this, the different uses to which the machine may be put are unlimited. He expects it to prove of great value to hospitals, particularly for reducing the temperature of wards in which fever patients are confined and in addition to its use for cooling residences and hotels, he says it solves the problem of individual cold storage.

Prof. Moore's invention, in addition to reducing temperature, washes, cleanses and renders the air dry and healthful. Hot air, filled with dust, is taken into the machine at a temperature of nearly 100 degrees and expelled almost instantly at a temperature of thirty degrees and with its relative humidity lessened by more than half. The machine operates, as its name implies, on the principles of gravity. That is, it makes use of the difference in weight between air at a high and at a low temperature. It is, moreover, automatic. It requires no motive power, and is self-adjusting. When the weather is very hot the machine works faster than when it is only moderately warm, and when the weather is temperate, the machine ceases its operations altogether. It is necessary to change the machine only once a day, preferably in the morning, and it will then automatically keep the dwelling in which it is placed at a cool, even temperature.

The Gravity Cooler will, like stoves, be manufactured in all sizes from a small affair corresponding to a stove designed to heat one room, to an immense cylinder,

corresponding to a dry heat furnace and capable of effectually and quickly cooling every part of a large dwelling. Prof. Moore only recently secured his patents and yesterday was the first day the machine has been in operation at the Weather Bureau.

MURPHY, the jeweler.

In the L. and N. railroad yards at Paris a very painful accident befell Edward Smart, a switchman, who, while coupling cars, had three fingers of his right hand mashed completely off by having them caught between the bumpers. On seeing the mangled and bleeding members, Engineer Brewer, of the yard engine, swooned and difficulty was had in reviving him.

Some weeks ago a well dressed stranger went to the home of Mr. and Mrs. Wm. E. Atchison at Salt Lick, Bath County, and made arrangements with Mr. Atchison to take and raise a child, not then born, for which he was to receive \$10 monthly. The child, a boy, was brought to Mr. Atchison about two weeks ago and the first \$10 paid. The little fellow pined away, however, and died. The man who made the deal with Mr. Atchison did not divulge his name. Further developments are expected.

Master Edwin Parker celebrated the fourth anniversary of his birth Friday afternoon by entertaining a number of his little friends from 3 to 5 o'clock at the hospitable home of his parents, Mr. and Mrs. J. E. Parker, of East Second street. The happy voices of the group of pretty children told the joy of the occasion. Those present, in addition to the handsome little host, were Misses Martha Green Sharp, Mary Barbour, Frances Dixon Ball, Louise Poyntz, Martha Thomas Stevenson, Margaret Downing, Evalyn Smith and Masters Gordon Smoot, Ben Gordon Marsh, John Nelson Browning, Perrine Owens, William Darnall McDougle, Charles Goff Downing, Madison Smoot, John Watson Mathews and Thomas Barbour.

Mrs. Laura S. Webb,

Vice-President of Women's Democratic Clubs of Northern Ohio.

THERE ARE MANY sickly women between the ages of 45 and 55, but there are very few invalids over 55 and 60 years of age. The change of life coming to a woman near her forty-fourth year, either makes her an invalid or gives

Mrs. Laura S. Webb.

her a new lease on life. Those who meet this change in ill health seldom live ten years afterward, while a woman who lays aside the active duties of womanhood in health seldom fails to live on in happiness, years after she has passed 60. This is truly a critical time.

Mrs. Laura S. Webb, of Toledo, Ohio, recognizes the change of life as a dangerous period and she also has faith in Wine of Cardui. She writes:

"As I had always been troubled more or less at the menstrual period, I dreaded

the change of life which was fast approaching. While visiting with a friend I noticed that she was taking your Wine of Cardui, and she was so enthusiastic about it that I decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax. I do not dread it now, as I am sure that your Wine of Cardui will be of great benefit at this time."

Wine of Cardui is the remedy to re-inforce a woman against the shock that comes with the change of life. It re-establishes healthy functions after years of suffering. In doing this it has saved thousands of sufferers just in time. Do not wait until suffering is upon you. Thorough preparations should be made in advance. Begin the Wine of Cardui treatment today.

WINE of CARDUI

A million suffering women have found relief in Wine of Cardui.

CHILDREN'S DAY SERVICES

Will be Held by Some of Maysville's Sunday Schools To-morrow.

The annual Children's Day service at the Christian Church will be held to-morrow evening, beginning at 7:30 o'clock. An interesting and entertaining program of songs and recitations will be rendered by members of the Sunday school, assisted by the choir. It will be largely a musical exercise. The church will be beautifully decorated, and as usual a large audience is anticipated. Everybody is invited. A free will offering for foreign missions will be taken at the close. Of the 175 Kentucky Christian Church Sunday schools that gave to foreign missions last year, the Maysville school ranked third in the amount of the offering. The school at Paris was the banner school, giving \$150; Frankfort was second with \$101, and Maysville third with \$85.

At the M. E. Church on Third street to-morrow morning at 10:30 o'clock there will be given a beautiful service entitled the "All Conquering Christ." From the first to the twentieth century will be represented. Come and enjoy the children's exercises, and don't forget the educational fund.

The Sunday school of the First M. E. Church, South, will give their Children's Day service to-morrow afternoon at 3 o'clock. An interesting musical and literary program will be rendered by members of the school. The church will be beautifully decorated. The collection will be for needy Sunday schools. A cordial invitation to everybody.

BOND HERB CO.

Temporary Organization Formed Last Night to Manufacture and Sell Medicines.

There was a preliminary meeting of subscribers held last night at the Council Chamber to take steps to incorporate the Bond Herb Medicine Company. Judge John L. Whitaker acted as Chairman. A company will be incorporated to manufacture and sell Bond's Specific, a meritorious proprietary medicine which Dr. John Bond has been making for years in a small way. The following officers were elected to formulate the articles of incorporation and by-laws of the company:

President—W. E. Stallcup.
Secretary—J. M. Collins.
Treasurer—John Duley.
Directors—Dr. J. H. Boyet, J. C. Pecor, C. D. Newell, Frank Clarke and W. D. Cochran.

The stock will be sold at \$5 per share. More than half of the original issue has already been spoken for or actually subscribed.

The next meeting will be held at the Council Chamber, June 20th, when the officers will submit the articles of incorporation for adoption.

CAPTAIN JAKE BISHOP.

Danville Citizen, Who Met With an Accident Here a Year Ago, Died Friday.

Hon. L. W. Robertson received a telegram Friday announcing the death of his uncle, Captain Jake Bishop, of Danville, at the age of about seventy-five years.

A little over a year ago Captain Bishop accidentally fell while at the Central Hotel, this city, and was confined to his bed for several weeks by his injuries. His death was caused by disease of the kidneys, and the injuries above mentioned. Captain Bishop was a prominent Mason, and was a veteran of the Mexican war.

The suit of J. W. Morford against the Safety Investment Company was dismissed settled in the Circuit Court this morning, the matter having been satisfactorily adjusted.

The minister will preach at the Christian Church to-morrow morning at 10:45 o'clock. The Children's Day service will take the place of the usual service at 7:30. No Endeavor service.

Rev. J. B. Jones will continue in charge of the Bellevue-Dayton Christian Church. His wife was a Miss Hord, of Wedonia, and on account of Mrs. Jones' health it was thought for a time it would be necessary to move South, but a change for the better will enable them to remain at Bellevue.

S. S. Alexander, bookkeeper, at the Ohio Valley Furniture Co., Manchester, and Mrs. Pink McMullen, also of Manchester, were married June 2nd at Harrison, O., by Rev. T. D. Moore, formerly pastor of the M. E. Church at Manchester. The bride has frequently visited in Maysville.

The trolley wire of the electric railway broke near the Fifth ward switch shortly before 7 o'clock this morning, badly wrecking the line for a square or two. Some of the employes and passengers on two cars had an exciting time escaping the heavily charged wires. Traffic had not been resumed as the BULLETIN went to press.

There will be a river excursion for the benefit of the Y. M. C. A. Tuesday night, June 17 7 to 10 o'clock. The trip will only cost 15 cents, and many have already expressed their desire to go. There will be music and refreshments. The excursion will be under the auspices of the Ladies Committee. A fine boat ride for all. A jolly good time assured.

The campaign for the Democratic nomination for Circuit Judge and Commonwealth's Attorney of the Eighteenth district has begun. Judge J. J. Osborne, the incumbent; J. T. Simon, of Harrison County, and L. P. Fryer, the present Commonwealth's Attorney, of Pendleton County, are candidates for the Judgeship. J. F. Morgan, of Nicholas, and J. C. Dedman, of Harrison, are candidates for Commonwealth's Attorney. A primary election seems to be the favored plan of making the nominations.

The Forum Publishing Company announces that, beginning with the July number, The Forum will be published quarterly, instead of monthly, as heretofore. The general character of the magazine will be the same, and its high standard will be maintained, but its purpose will be more specifically those of a review and outlook. It is believed that by publishing quarterly a review of the world's events in every field, as well as to some extent an outlook based on the conditions presented, the essential features can be fully covered.

PUBLIC BUILDING.

It Is Now a Certainty. As the President Signed the Bill This Morning.

[Telegram to BULLETIN.]

WASHINGTON, CITY, June 7, 1902.—The President has signed the Public Building bill.

It gives us \$40,000 for a building at Maysville.
J. N. KEHOE.

The above telegram was received at 10:30 o'clock, and will be good news to everyone who has the future of Maysville at heart. Congressman Kehoe deserves, and will receive, the praise he richly merits for having accomplished in a few months what other Representatives have tried for years to secure.

Dr. Edwin Matthews is still suffering considerably from the accident he met with Wednesday, when he had the third finger of his right hand so badly mashed while moving a dental chair.

Charles Chamberlin, seventy, who formerly ran a restaurant in this city, died Friday morning at Cynthiana from a paralytic stroke. He was related to the Chamberlains, of New York City.

At the M. E. Church Sunday night Miss Horst, a deaconess, will speak. This will be an opportunity to hear one of these devoted women who are accomplishing so much for the church. A cordial invitation is extended to all.

A big crowd took advantage of the school excursion to the Zoo this morning, notwithstanding the threatening weather. The local agent reports that 468 tickets were sold. Many from the country took advantage of the low rate.

A FATAL MISTAKE
Is Often Made By the Wisest of Maysville People.

It's a fatal mistake to neglect backache. Backache is the first symptom of kidney ills. Doan's Kidney Pills cure promptly. Don't delay until too late. Until it becomes diabetes—Bright's disease.

Read what a Maysville citizen says:
Mr. Fred W. Bauer, job printer of 4 East Second street, says: "For a year or more I had considerable pain in my back. The secretions from the kidneys were dark and there was some inflammation of the bladder, evidenced from a sensation of scalding. Doan's Kidney Pills came to my knowledge and I procured them at J. James Wood & Son's drug store, corner of West Second and Market streets. The treatment soon restored the kidney secretions to a natural color, ended the inflammation and banished the pain from my back. If a cold or any other cause should bring on a recurrence I now know what to use."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no other.

Whisky Medicines.
The temperance press is emphasizing the danger to the home in the use of "medicines" which are loaded with whisky or alcohol. In this respect, as well as in the remarkable character of their cures, Dr. Pierce's medicines differ from other preparations. Dr. Pierce's Golden Medical Discovery and "Favorite Prescription" contain no alcohol, whisky or other intoxicant, and are equally free from opium, cocaine and other narcotics. Every family should have a copy of the People's Common Sense Medical Adviser, sent absolutely free, on receipt of stamps to pay expenses of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.
